

text of the drawings and specification, which references these elements with proper spelling. According no new matter is entered.

Appropriate correction of a portion of the word "PREREQUISITE" is mad at the block 626 of Fig. 6. This is clearly supported by the specification as filed at page 17, line 4 where the term "prior prerequisite transaction" is used in connection with block 626. Accordingly, the correction should be fully supported by the original block term and the context found in the specification. As such no new matter is added.

Early and favorable action is respectfully requested. Please direct any questions in connection with the above-identified patent application to the undersigned by telephone call.

Please charge any additional fee occasioned by this paper to our Deposit Account No. 03-1237.

Respectfully submitted,
